

ENVIRONMENTAL POLICY

Alter is committed to operating its recycling facilities in an environmentally responsible manner. It is Alter's policy to:

- Establish and maintain an environmental management system (EMS) for all of its recycling facilities;
- Ensure that its EMS remains appropriate for the environmental issues associated with its facilities;
- Monitor regulatory compliance status, and take action as necessary to ensure that compliance is maintained;
- Establish reasonable, achievable, and economically viable objectives and targets for environmental performance as part of its business planning process;
- Prevent or minimize environmental pollution attributable to its operations and protect the environment through the use of Best Management Practices; and
- Seek to continually improve its environmental practices.

These policies shall be made available to interested parties in response to specific requests for information, or as may otherwise be directed by management.

A handwritten signature in blue ink, appearing to read 'Jay Robinovitz', written over a light blue circular stamp.
