

NO ZONES

NO ZONES

NO ZONES

These pictures show the **DANGER** zones around equipment often found in our facilities.

The shaded areas in the pictures indicate areas around equipment you should avoid because the operator has *limited to no visibility*.

Skid Loader

Forklift

Tractor Trailer

Dump Truck

Material Handler (Crane)

Front-end Loader

YOUR SAFETY is our first priority

Safety guidelines for
your visit to our facilities

Basic Safety Guidelines

Alter values your business, but we value your safety even more. When visiting any Alter facility please obey the following safety guidelines:

1. Children - Recycling can be a family activity, but the scrap yard is not a place for children play. Children under the age of 16 are not allowed in any Alter facility. If your children are with you and wander away and/or create a safety hazard, you will be asked to leave the property.

2. Pets - Pets must remain in the cab of your vehicle at all times.

3. Safety Apparel - You will be provided with and required to wear safety apparel, including a hard hat, in some areas of our facilities.

4. No Zones - NEVER approach any equipment. There are many blind spots and the operator CAN NOT see you. Wait for the operator to signal you and direct you toward him. Never travel or park behind equipment. More information can be found inside this brochure.

5. Personal Vehicles - stay with your vehicle at all times and do not wander into the yard or buildings.

6. Footwear - You MUST wear shoes at all times in our facilities. Appropriate footwear should have a hard sole and be closed toed. No sandals or flip flops are allowed.

We recycle metal and do not accept **ANY liquids, oils or non-metals of any type**. Your load will be inspected and some items might be returned to you.

Any cylinder, like an LP tank or other types of closed containers or tanks, will be rejected if not cut in half or at a minimum a fist sized hole.

Loaders, forklifts and skid steers can turn quickly and have many blind spots, NEVER approach or get within 30 feet of any of our equipment unless that operator had directed you to approach him or her.
